## Professional Grade Asphalt Patching Material

-  Permanent all-weather repair
-  High workability in extreme temperatures
-  Retains strength after freezing and thawing
-  Professional grade, high performance
-  No mixing needed. Ready to use right out of the bag.
-  Environmentally friendly
-  Open to traffic immediately
-  Shelf life of at least three years. Save and store unused material.

| Hei-Way <sup>®</sup> Mix Grades   | Application Temperature |
|---|-------------------------|
|  Summer | 50°F and above (10°C)   |
|  Winter | 50°F and below (10°C)   |

# VALUE ADDED DISTRIBUTOR

## OF WATERWORKS INFRASTRUCTURE PRODUCTS

## Easy to Apply!

- 1 Remove all loose debris out of the pothole. (Patch area does not need to be dry.)
- 2 Add material to pothole. Apply in two inch-lifts, and compact each lift until pothole is full.
- 3 Compact thoroughly using a hand tamp, or drive slowly over the patch with a vehicle. Leave a slight "crown" to allow additional compaction by traffic.
- 4 For best results, after compaction, spread a light layer of sand evenly over patched area.

## Coverage Table

Use to determine the number of 50-lb bags required to cover desired area.

| Area (ft <sup>2</sup> /m <sup>2</sup> ): | 2.0/0.2                               | 3/0.3 | 5.0/0.5 | 6/0.6 |
|--|---------------------------------------|-------|---------|-------|
| Depth (in/cm):                           | Number of bags required for coverage. |       |         |       |
| 2/5.0                                    | 1                                     | 1     | 2       | 3     |
| 3/7.5                                    | 1                                     | 2     | 3       | 4     |
| 4/10.2                                   | 2                                     | 2     | 4       | 5     |
